

Flight Plan System

Efforts By Group 7: Jatesh Joshi, Tarif Khan, Nguyen Chau

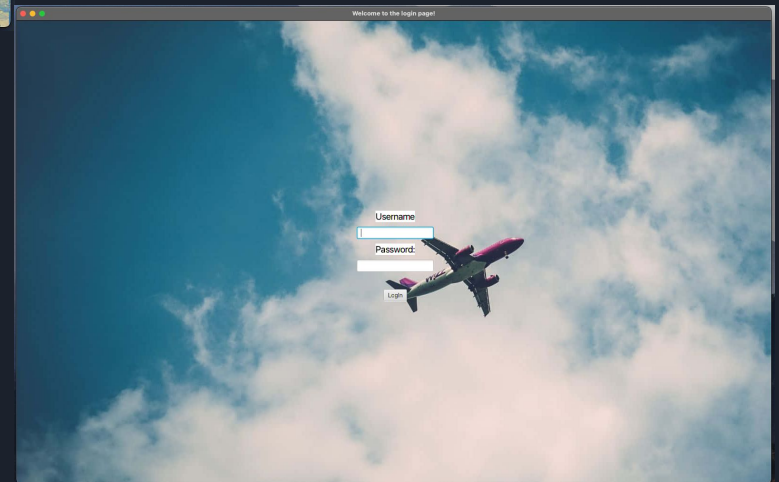

What our project is about?

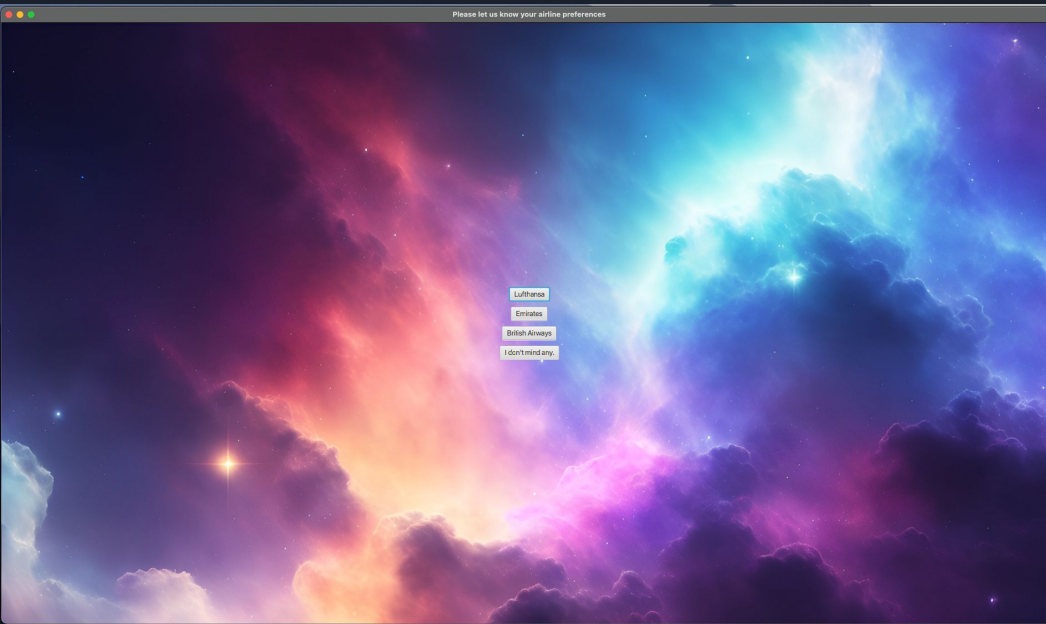

A product that is designed for preciseness.

First time users need to sign-up before they can login in and view the flights.

Once logged in, if you desire, you can start out by choosing any of the three supported airlines with top notch safety records

We also offer a selection of jumbo jets that you can select if you want a specific jet to fly you across the atlantic.

More domestic and International airlines to be supported in the later updates

ON MY WAY TO
UNKNOWN THINGS.

Based on the information a list of available flights will be shown with their prices and layover durations

After selecting the flight you have the option to select special accommodations, meal preferences, luggage accommodations and seat preferences.

After customizing the flight details to your liking you'll be able to confirm your flight and receive a ticket number
